

Adult Respite

At Westhaven our purpose, vision and values are to assist people in living life the way they choose. We offer both planned and unplanned respite services for people with disability aged 18 years and over.

Accommodation

Westhaven provides short term accommodation in the form of respite. This is as a way for participants to continue to have their support needs met, when their usual supports are unable to.

To ensure the needs and preferences of each participant are met, an intake meeting is held prior to service commencement.

Westhaven takes great pride in delivering positive and meaningful experiences to participants in our services.

We can provide planned or emergency respite to participants who require support.

NDIS Assistance

Your supports can be delivered flexibly from your core support budget under the NDIS, with a wide range of options including:

- Choice of service delivery and times
- In or out of home respite
- Community participation or other activities
- Recreational activities
- Group respite with peers
- Cultural activities and support
- We can provide overnight, short term placement or day-time respite in a Westhaven property with support staff

Please contact Westhaven if you would like more information on the process and advice on the best pathway for you or your family member.
